

Bev McClune

.....BASIC TRAPUNTO.....

REQUIREMENTS LIST

Please note that the **fabric requirements listed here are if you are choosing to use one colour only for the quilt top**. In the DVD workshop I chose 2 fabrics to make things more interesting and therefore you will need to adjust your fabric requirements over 2 fabrics if you are choosing to do as I have.

- 1.40 metres of light fabric – e.g. homespun or a light coloured tone on tone fabric if you would prefer something not so plain.
- 1.8 metres of 1.5 meter wide backing fabric
- 1 metre of the 3 metre wide Hobbs Heirloom wadding polyester wadding for Trapunto designs-(this is best if it is about half an inch thick – a little under or a little over will be okay - if it is too thick it is harder to manage)
- 1 ball of Trapunto Yarn – (I like to use Matilda's Own Trapunto Yarn)
- Darning needle (large eye) and threader (for Trapunto Yarn)
- Thread – 2 reels of Rasant or cotton that match your fabric and any contrasting threads you may like to use to be able to see your quilting better if you wish. (Please note you will be using a twin needle hence the 2 reels of your chosen thread.)
- Madeira pre-wound bobbin fill (approx 6) – or fill your own bobbins with Rasant that closely matches your backing.
- Blue water soluble marker or blue washout marker – (I like to use the Clover brand as I know it washes out)
- 4mm twin needle x 2 (Please have 2 of these in case one needle breaks.)
- 1 packet of Machine Quilting needles (green tip)
- Clover flower head pins
- 1 can of Spray Baste
- 2 pairs of Scissors – one pair for your fabric and a smaller pair to cut Trapunto wadding away from your designs
- Thread cutters / snippers
- **Open toe foot, walking foot and free motion/darning foot are absolutely essential.**
